

IMPERIAL PARCHMENT

This is the well known “special pen surface paper” until recently sold by Waterstons of Edinburgh. It is only available in boxed sets of 200 Post Quarto sheets (size 9” x 7”) with matching envelopes. (See special price list).

CORRESPONDENCE CARDS

Matching correspondence cards with name and address (or name/address only) are a most popular stationery item. Please note that thermographed cards will tend to slightly curl. The standard correspondence card is A6 (148.5 x 105mm) for use with a C6 envelope. The larger correspondence card (178 x 113mm), uses the Post Quarto size envelopes. For those that like a really stiff card we have a special “Ultra Thick Letterpress” range in Brilliant White, Cream and Sky Blue.

CARDS FOR INVITATIONS

The card we use for our engraved and thermographed invitations is a heavy smooth card, made in Holland. This card comes in:

- 490gsm – our standard weight for general invitations and “at Homes”, especially those sized 6.2”x4.2”
- 600gsm – A thicker card for some ‘at homes’ or larger invitations and special occasions (good for bevelled edges and gilding) (Also comes in an “Oyster” colour 500gsm).
- 750gsm – A super thick card very good for bevelled edges and gilding. (Please ask for prices).

PRESENTATION BOXES

All of our stationery is packed into our special hand made strong presentation boxes.

TYPE STYLES

We have two standard type style sheets. One is for personal stationery, whilst the other is for invitations. If you are looking for a style not on the sheets, it is more than likely that we will be able to trace it from our extensive type library.

PROOFS

We supply one “proof copy” of each item to be printed, along with a proofing slip for you to sign as “correct” and return to us as your agreement for us to proceed with the printing of your job. Further alterations or additions to this proof will be classed as “Author’s Corrections” and will incur an extra charge. Proofs will normally be e-mailed, faxed or sent by post as a ‘laser printed proof’. Proofs will not be on the chosen stock, nor show the thermographed or engraved processes and the colour of ink. If a proof is requested but the subsequent printing is not ordered, a charge will be made.

ORDERS

Please send written, faxed or e-mailed orders. (or use the contact form on our web site). Telephoned orders should always be followed up with written instructions. We are always delighted to help you with advice on any printing matter.

DELIVERY

Delivery to a UK address will normally be within 14 working days of your agreement of the proof, although there are times when we are exceptionally busy and may need three weeks to complete your order. If you wish to fast track your order, there will be an additional ‘rush job charge’. (£75)
Orders that involve the engraving of dies and copper plates will take a longer.

PAYMENT

Full payment by credit card or cheque, is required before your stationery is dispatched to you.

We charge delivery ‘at cost’ and use a UK carrier service (DHL) that will deliver within 48 hours.

GENERAL INFORMATION

Piccolo Press, established in 1985 by Commander Tim Honnor, enjoys an enviable reputation for supplying the highest quality stationery to clients world-wide. All design and printing is done “in house”. This enables us to provide you with a quick turnaround of your order at a competitive price.

PRINTING PROCESSES

- **Engraved:** Piccolo has the only diestamping presses within Scotland and is one of the very few printing companies in the UK able to manufacture engraved stationery. Our engraved copperplates and steel dies are made by two of Britain’s finest engravers.
- **Thermography:** Our thermographic (heat raised) printing uses special matt powders, producing a raised image remarkably similar in appearance to the engraved process.
(Please note that due to heat, thermographic stationery is not suitable for papers that will subsequently be passed through a laser printer).
- **Lithographic:** Our flat printing is mainly done by lithography.
- **Letterpress:** Letterpress printing produces a crisp and dense image with a slight indent, and has a stunning tactile quality.

INK COLOURS

Our standard ink colours are Black or Dark Blue. All other colours will incur an additional ‘mixing charge’ of £6.00 per order.

PICCOLO PAPERS AND ENVELOPES

These papers, smooth for writing on with a fountain pen, are of the highest quality with plenty of bulk. Piccolo Papers and Envelopes come in:

- Piccolo Brilliant White
- Piccolo White (soft white)
- Piccolo Cream
- Piccolo Sky Blue
- Piccolo Vellum
- Piccolo Recycled (oyster)

CONQUEROR PAPERS AND ENVELOPES

Conqueror, a quality paper slightly lighter than Piccolo Paper, has been a favourite with our clients for many years. Please note that laid papers are not suitable for thermography.

Conqueror Papers come in:

- High White Wove (soft white)
- High White Laid
- Cream Wove
- Vellum Laid
- Sky Blue Laid

PAPER SIZES

All papers can be supplied with matching envelopes in size A4 (210mm x 297mm), Quarto (10” x 8”) and A5 (156mm x 210mm). Only Piccolo Papers can be supplied in Post Quarto (9” x 7”).
